Japanese medical treatment
must change.
However, what type of system
should we aim at?
While the skills of doctors are high,
the poor patients
cannot get medical treatment in USA.
Is such American type really right?
Isn't there any other way?

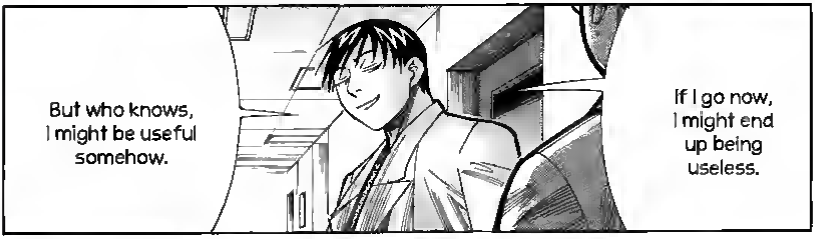
HUNKS SCANS

Even if you have Kunitochi-sensei's recommen-dation, things might not go that well
You might not be able to perform surgeries well enough.
Could be...
But there's nothing I can do about that now, can I?
You don't have to become someone like Kuni-tochi-sensei!
Besides, compared to that, there are a lot of things going for you here at Meishin!!
There are people here who value you, just like Kitou-sensei! Plus the botisto team is becoming more popular!
Can't you just stay here and start planning out your life from here on?

EVEN I HAVE BEGUN
TO BE TREATED LIKE A USEFUL INTERN,
ALTHOUGH GRADU-ALLY...

You...
sound like an old man.

You think I can do something like plan out my life?
I have no idea what's going to happen from here on.



If I go now, I might end up being useless.
But who knows, I might be useful somehow.

At times like this,

You don't know how things will turn out?

...AS FOR ME...

Since it's an important surgery where we'll exchange skills with people from Kitanihon, I'd like ta be more pre-pared...
What could he be thinking...?

You got dirtied.
My father is like a god...
Do you know of Kunitachi Shouichiro?

Doctors...

If we're talking about ability --
Who do you think will be his assistants?
Has Kirishima-sensei come yet?
Tsuyuki-sensei is leading him to the professor's office, as we speak.
Asada?

That's impossible.
He's going to do a surgery now.
I see...
Then, Wakita-sensei,
perhaps?
And to play it safe, Nakada-sensei?
Sounds possible.
Oh! Tsuyuki-sensei has returned!!
Tsuyuki-sensei!
Who are the members?

You're having them roll the dice...

That's basically saying that anyone will do..

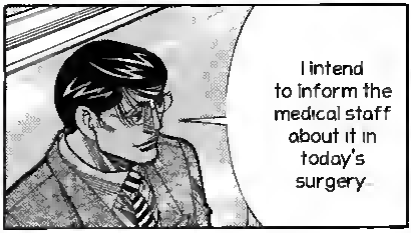
I plan to create a medical office with no drop-outs.



I intend to inform the medical staff about it in today's surgery

In order to appeal to voters, it's important to do something exceptional for the upcoming election.

It seems that Asada-kun

AN ORDINARY
PERSON'S RADIANCE

Y... Yes.
You want to observe Kirishima's surgery for future reference?
If you could ask someone else to assist you today...
So...
No problem.
I talked to Asada-sensei yesterday
and received his permission.
I see.

UNTIL NOW, I ALWAYS HAD
TWO OPTIONS --
TO FOLLOW ASADA,
OR TO ABIDE BY THE RULES OF THE MEDICAL OFFICE ...
IN ANY CASE,
I WAS SUPPOSED TO MAKE THE DECISION MYSELF, BUT...
NOW THAT I THINK ABOUT IT,
IT FEELS LIKE I JUST ALWAYS GOT SWEPT AWAY BY ASADA'S PACE...
I WONDER WHEN...

I STARTED TO THINK...
THAT I HAVE TO FOLLOW HIM NO MATTER WHAT.
...HOW-EVER,

UNLIKE ASADA, I'M NO SUPER-MAN.
NEITHER CAN I LEAD SUCH AN EASYGOING LIFESTYLE.
THERE MUST BE
A REAL-ISTIC IMAGE OF A DOC-TOR--

*MEDIAN INCISION = AN INCISION THAT RUNS DOWN THE MIDDLE OF THE ABDOMEN, ALLOWING ACCESS TO INTERNAL ORGANS

LIVELY SCANS

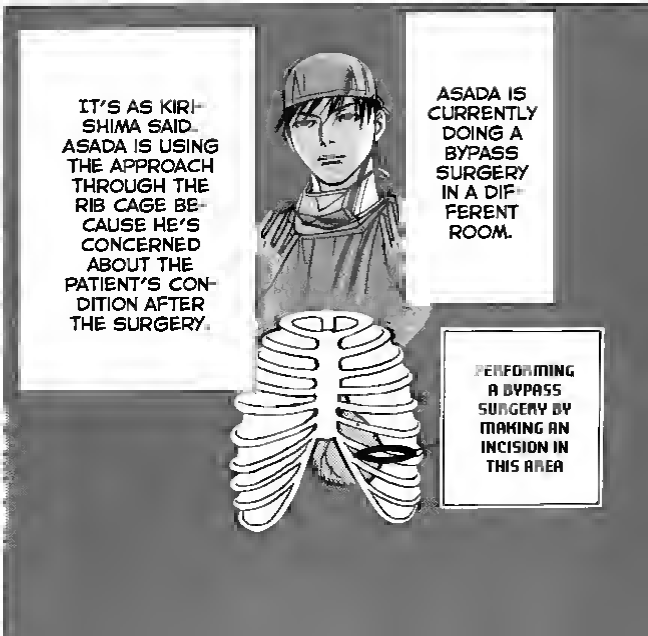
It's an ordinary median incision that anyone can do.
It's one of the simplest techniques used in cardiac surgeries.
And such an ordinary surgery
is the type of surgery I would like to show to all of you today.

WHAT IS THIS?
BY USING A NEW TECH-NIQUE ...?
WASN'T HE PLAN-NING ON APPEAL-ING TO EVERY-ONE
a technique to reach the heart through the ribs, without having to use a median incision, became popular.
Several years ago,
Even now,
and the recovery is faster, hence the patient can be released earlier.
That technique does not burden the patient's body,

IS HE ...
TALKING ABOUT ASADA?

a surgeon is using that method
here at Meishin.

However,



IT'S AS KIRISHIMA SAID. ASADA IS USING THE APPROACH THROUGH THE RIB CAGE BECAUSE HE'S CONCERNED ABOUT THE PATIENT'S CONDITION AFTER THE SURGERY.
ASADA IS CURRENTLY DOING A BYPASS SURGERY IN A DIFFERENT ROOM.
PERFORMING A BYPASS SURGERY BY MAKING AN INCISION IN THIS AREA

as you all know,
the space between the ribs is extremely narrow!
To connect one bypass graft, you need to know the proper technique.
And to connect two or more, you need to be an expert.

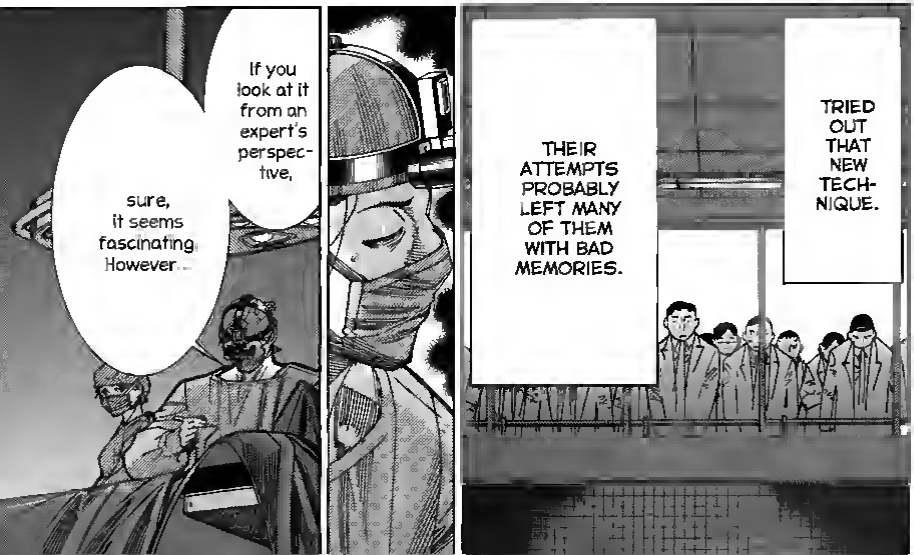
ASADA
CAN CONNECT TWO, OR EVEN THREE BYPASS GRAFTS.

A lot of surgeons began to use that new technique.
And as a result,

the success rate for performed surgeries dropped drastically.

LIVELY SCAN

IT'S A STORY FROM BEFORE I ENTERED THE MEDICAL OFFICE...
THE PEOPLE HERE MUST HAVE
At present, there aren't many people who would choose
to use that approach through the rib cage...



If you look at it from an expert's perspective,
sure, it seems fascinating. However...
THEIR ATTEMPTS PROBABLY LEFT MANY OF THEM WITH BAD MEMORIES.
TRIED OUT THAT NEW TECHNIQUE.

*HEPARIN = A DRUG THAT PREVENTS & TREATS BLOOD CLOTTING

Eh?!
Okay.

CHATTER
CHATTER
CHATTER
CHATTER

THIS IS UNEX-PECTED ...
But shouldn't he be skilled enough to do the surgery without it...?
He'll use the heart-lung machine on purpose?

has become an obsolete practice. Consequently, many surgeons avoid doing it.
performing a simple bypass surgery using a heart-lung machine
...Nowadays,

How-ever,
off-pump surgeries, performed on a still-beating heart are better in terms of aftereffects
Indeed, a lot of articles state that

LILYLY SCANS
http://lilyscans.com

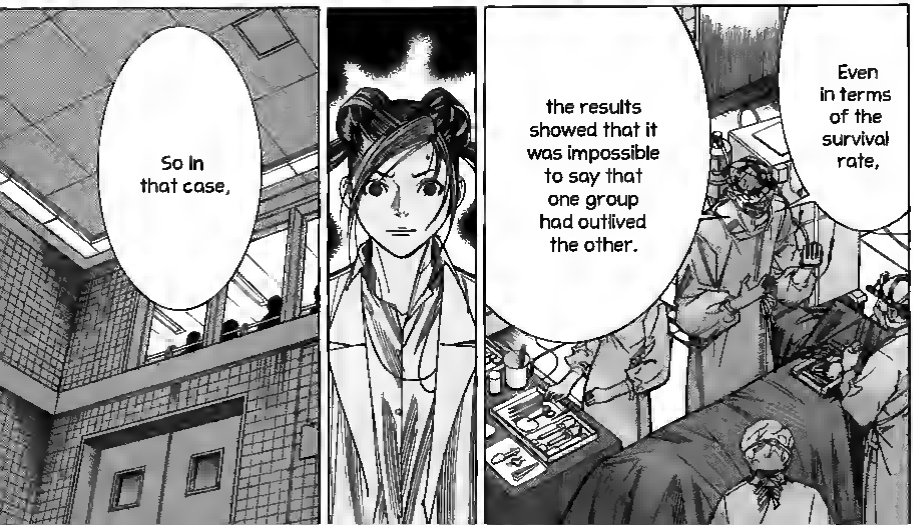
is nothing but a myth.
that...

THERE IS NO MISTAKING IT--
.....
USING THE HEART-LUNG MACHINE AS MUCH AS POSSIBLE.
HE AVOIDS
PERFORMS SURGERIES ON A STILL-BEATING HEART.
ASADA ALWAYS

IS CLEARLY A CHALLENGE TO ASADA...!!
THIS SURGERY

...So that's how it is.

And the results showed--
that there was no difference in their post-operative effects on the brain and respiratory functions!
after using each of these two techniques.
In America, a survey was conducted to compare recovery
Off-pump and on-pump



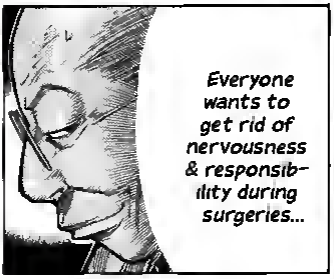
So in that case,
the results showed that it was impossible to say that one group had outlived the other.
Even in terms of the survival rate,

*GRAFT= A SUBSTITUTE BLOOD VESSEL USED IN BYPASS SURGERIES

since we don't need to face any difficult challenges.
Relax.
A slow but confident surgery is a good surgery.
LUNAR SCANS

I plan on doing
surgeries of this type,
in line with Meishin's standards.

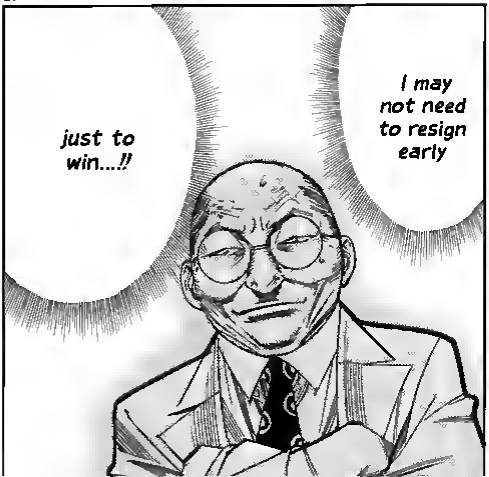
The hospitalization period will be prolonged, enabling the medical office to gain more profit..
. And that's not all. By using the heart-lung machine, the medical costs will be doubled.
.. He completely discredited Asada.



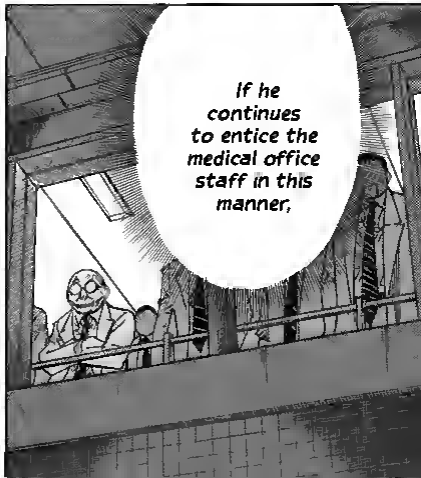
Everyone wants to get rid of nervousness & responsibility during surgeries...

so to simpletons who are easily swayed,
what Kirishima said must be like words of salvation

His logic is perfect.



I may not need to resign early
just to win...!!



If he continues to entice the medical office staff in this manner,

Did you think I was going to do something special..?

Doing that is Asada's type of surgery.
If you did, then you mis-calculated.

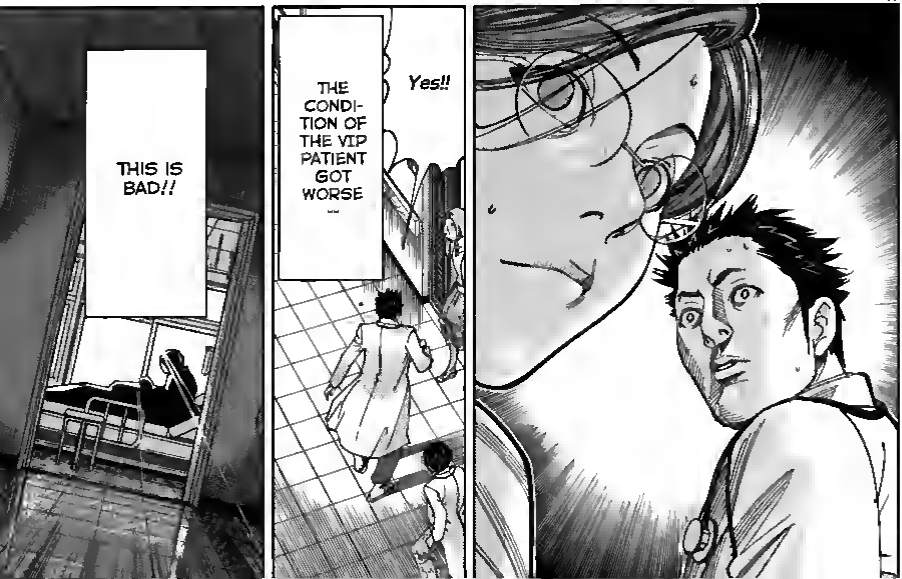
What?
Eh?

The staff will administer the tests later...
MUNCH MUNCH
why don't we have lunch together this time?
Nurse,
Ah... Thank you...
A KAKI SEED...

JUST TO GET WHAT THEY WANT AND MAKE PASSES AT NURSES ARE TROUBLESOME AS WELL.
PATIENTS WHO TAKE ADVANTAGE OF THEIR ILLNESS AND TEARS
Come, quick!!
It's an emergency!
Doctor!
NOW THAT I THINK ABOUT IT, THERE WAS ONCE A FEMALE DOCTOR WHO GOT PERSUADED TO GO OUT WITH A CANCER PATIENT...



THIS IS BAD!!
THE CONDI-TION OF THE VIP PATIENT GOT WORSE ...
Yes!!

LUCKY SCANS

She suddenly stopped breathing when I tickled her...!
She...
What happened?!
It must have entered her respiratory tract while she was laughing!!
Could it have been a peanut?

*CYANOSIS = A CONDITION IN WHICH THE LIPS, FINGERS, AND TOES APPEAR BLUE DUE TO ABNORMAL BLOOD CIRCULATION

THUMP

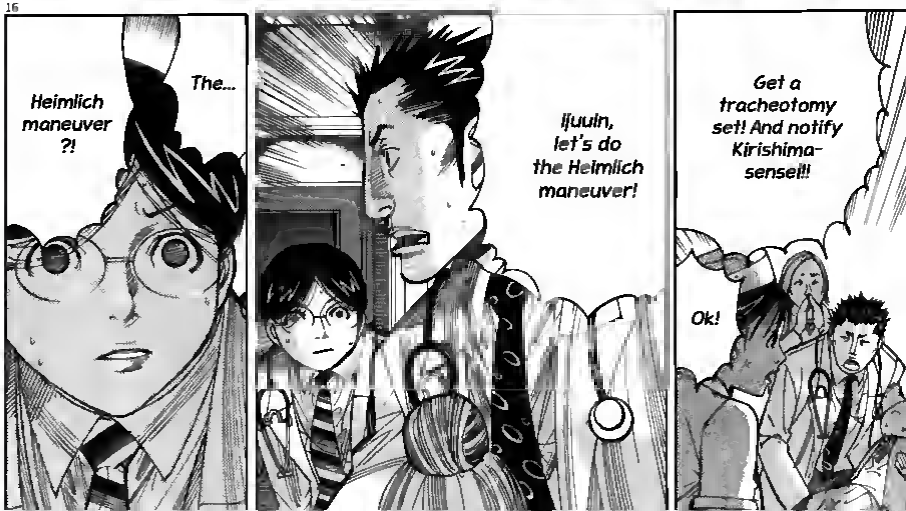
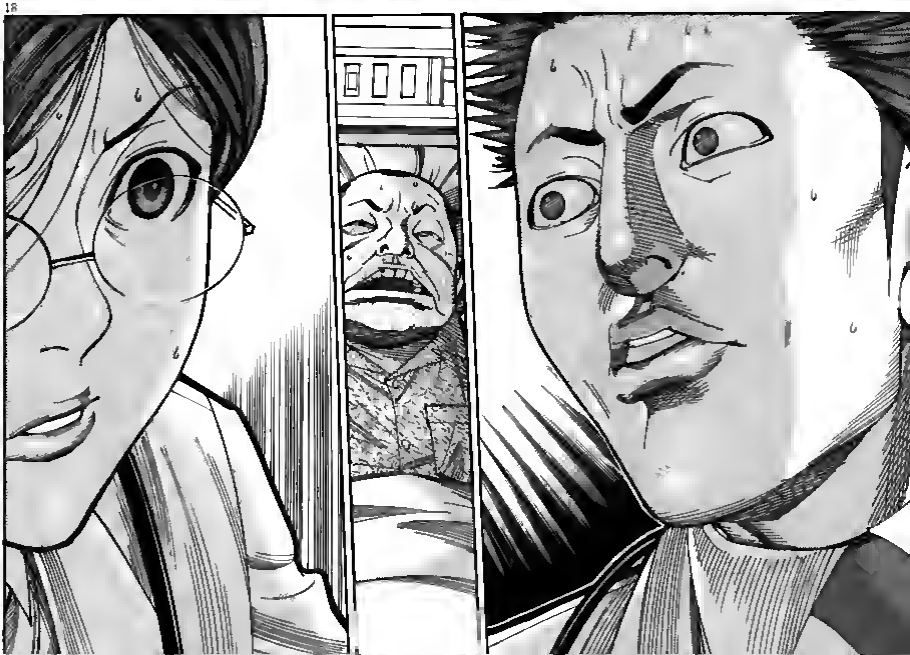
Hit her on the back!!
Ijuuin!!
Damn!
It's not working!



Heimlich maneuver ?!
The...
Ijuuin, let's do the Heimlich maneuver!
Get a tracheotomy set! And notify Kirishima-sensei!!
Ok!

You place your fist above the navel
and pull it upward and inward... or something like that!
Father.
It's all right!!
I've seen this on TV!
A rescue worker used it on someone who choked on some food!



LIVRAISON SCANS

This Heimlich maneuver,
It can be o success! But if it's done wrong, the patient can die from the domoge to the inter-nol organs!
It's too dongerous to use an o kid!!
It's been anly a minute since she stopped breath-ing!!
Please woit for 30 seconds!
SLAM
Then what do you suggest we do?
Is there another way?!

If I'm not back by then, you can proceed with the Heimlich maneuver!!
Hey!
Is this really all right?! Isn't he just an intern?!

while they were cleaning one of the patient rooms!
I saw it over there,

SLAM

What's wrong ?

HRDDDDDD

THERE IT IS!!
!

What are you spacing out for?!
Hey!
They did it on TV!
It will be all right!
Just do it!
Do it, quick!
My granddaughter is about to die!

Okajima-sensei!
I can't wait any longer.
!
Where are you, Ijuuin...
Stop it with the TV.

MYFILM SCANS

Plug it in!
Let's try using this.

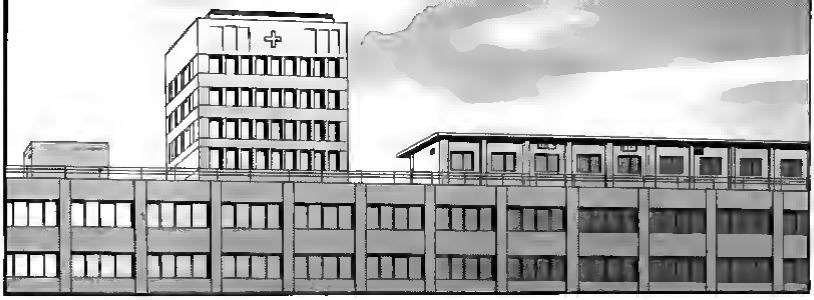
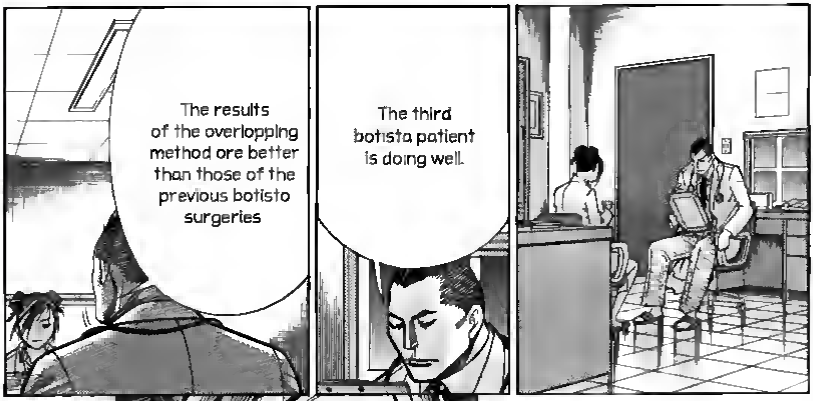
CH.104
THE REQUEST





The results of the overlopping method ore better than those of the previous botisto surgeries
The third botista patient is doing well.

LIVEJAY SCANS

Katou-sensei?
Eh?
R-Right!
Have you already decided?
No..
Nothing has been decided yet.

Professor Noguchi said that we need to corefully observe the potient's re-covery after using the overlapping method...
That means there won't be any further surgeries for o while.
Moreover, we can't use the some "emergency surgery" excuse anymore...
And it's possible...

that the batista team
will never assemble again.

Asada will go to America when the election is over.
And Ijuuin-kun is now at Kirishima Gunji's side.

The team's falling apart.
...I had never thought that even Ijuuin-kun would leave.
RATTLE

You can come to me whenever you need to talk...
for bothering you with this...
...I'm sorry

take two or three days off?
Why don't you
If you'll excuse me...
.....

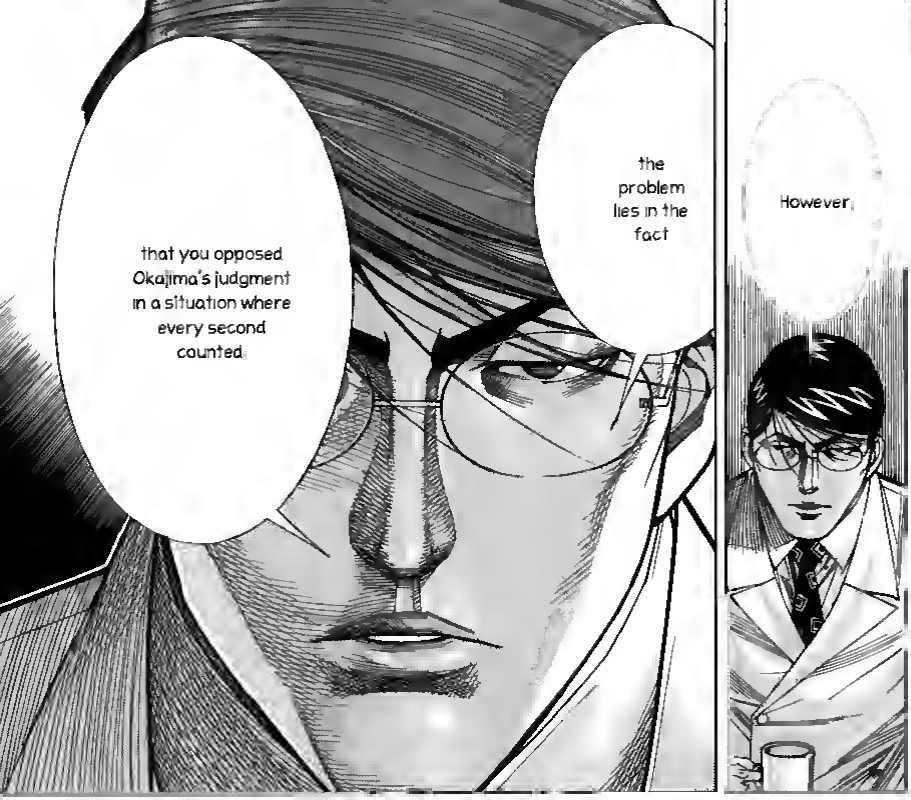
Katou-sensei!!
Let's believe in Juin!!
That he will make the right decision!!
And in Asada!!

Professor's Office
He used a vacuum cleaner
to suck out a bit of food from the kid's throat...

Right...
Why did you decide against doing the Heimlich maneuver?
The Heimlich maneuver can cause damage to the internal organs...
It's possible for a patient to die from a wound it might cause...
and I couldn't allow something like that to happen to a kid...
In such instances, you should try using a vacuum cleaner, Ijuuin
Who
told you that?
IT'D BE TROUBLE-SOME ...
IF I MENTION ASADA'S NAME...
SHAKE
SHAKE

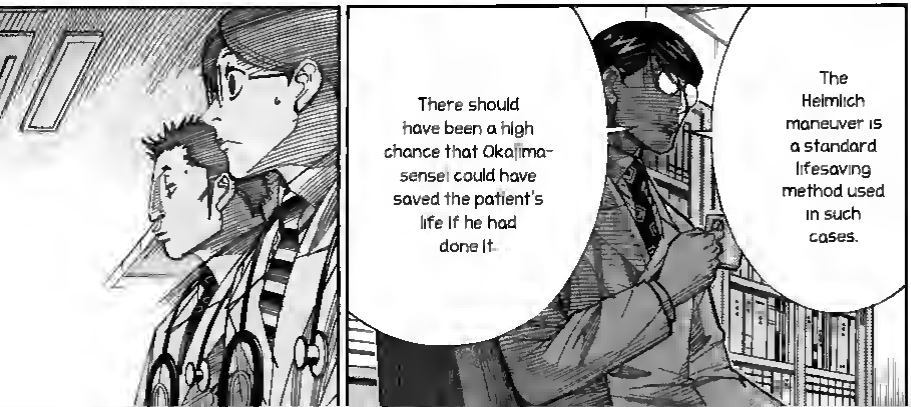
*T/N: THE KANJI ALSO MEANS THAT THE METHOD IS VALID OR ACCEPTABLE

The idea of using a vacuum cleaner...
was thought up by a Japanese
That method is not internationally renowned, but it's effective.*
You did well



that you opposed Okajima's judgment in a situation where every second counted.
the problem lies in the fact
However,

!!

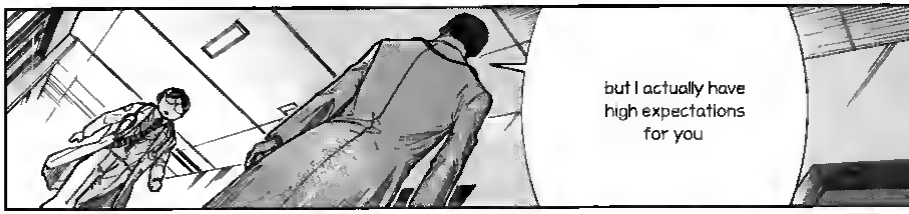


There should have been a high chance that Okajima-sensei could have saved the patient's life if he had done it.
The Heimlich maneuver is a standard lifesaving method used in such cases.

You were included in the batista team despite being just an intern...
Could it be
that you think you're some kind of special intern because of that?
...No.
I HAD NEVER THOUGHT THAT WAY ...
You will still receive my guidance,
but from now on, you have to behave the same as all the other interns...
Under-stood
...THAT WAS TO BE EXPECTED ...

The patient in the VIP room said that he doesn't trust Okajima anymore
He said he wants a different attending physician
What will you do about it?
In that case,
I'll take charge of him myself
Ijuuin-kun, come with me
Yes
Let's go greet him.

Ijuuin-kun.
Yes?
I said some harsh things to you back there,



but I actually have high expectations for you

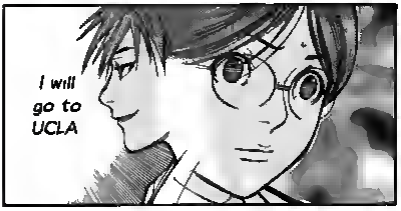
Continue to work hard.
...All right.
Thank you.

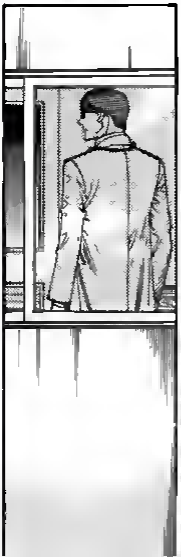
don't you think he'd be disappointed?
If Asada-sensei loses a promising intern like you,
If that's a decision you made yourself, then I'm fine with it.
I don't think so...
After all, I'm just an intern...
Besides...

But I heard you played an important role in the batista procedure the other day...
Asada-sensei's team consists of people with outstanding abilities...
and I'm not as skilled just yet...
That was just a coincidence!!
If either Nakada-sensei or Wakita-sensei joins the team in my place, the team would become even stronger!!
I...
don't think I'm at their level yet

You don't like Asada-sensei's team?

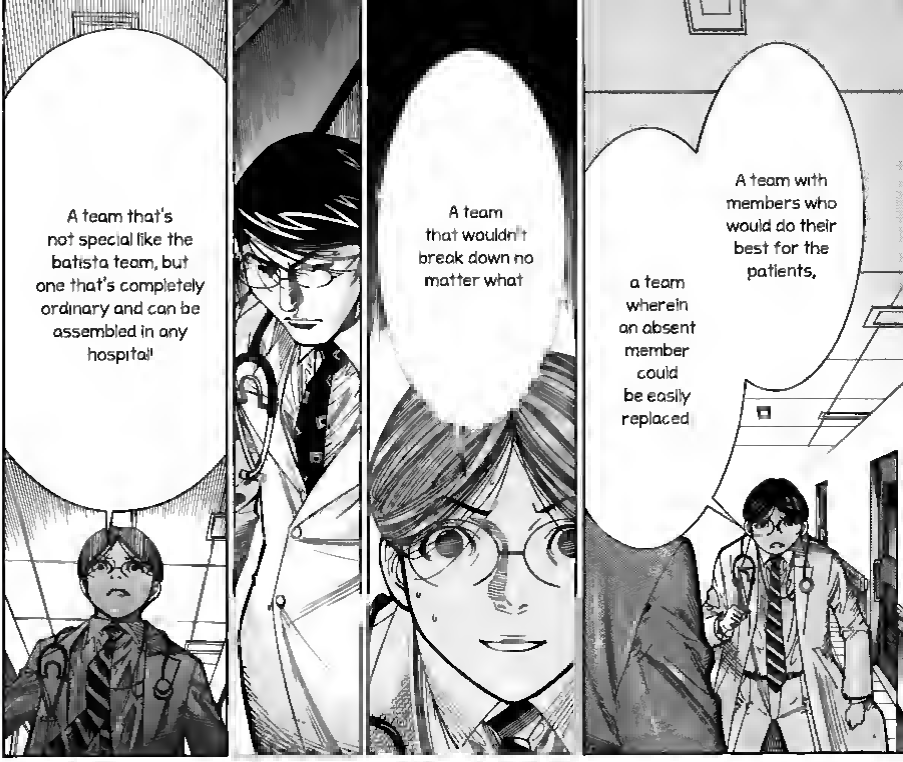
Then why come to me?
That team is great for the patients
They do things that no other team could accomplish
...You're wrong.
I feel like the batista team
isn't the kind of team I want to be a part of...





LIVELY SCANS

The batista team
Is a strong yet fragile team
Of course, we need a team with top-class doctors,
but what I want is a normal team



A team with members who would do their best for the patients,
a team wherein an absent member could be easily replaced
A team that wouldn't break down no matter what
A team that's not special like the batista team, but one that's completely ordinary and can be assembled in any hospital!

Wouldn't creating that kind of team
be better for a greater number of patients?

I don't want to become a hero
I'm satisfied with just being an ordinary pawn

So if
you're going to assemble that kind of team

I'd like to help you!
Yo.
Hahaha

about being careful with the Heimlich maneu-ver.
Looks like you remembered what I taught you,
You saved a kid using a vacuum cleaner!!
I heard about it, Ijuuin!

let's go.
Ijuuin-kun,

I may be asking for too much,
but I have a request.
What is it?
.....
In the surgery of the VIP patient...

Please,
let me be your assistant.

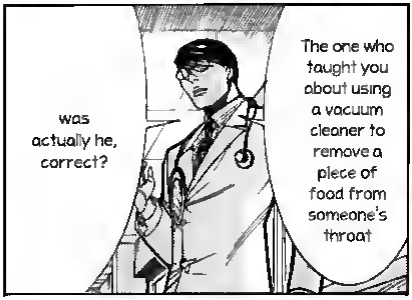
DEPARTURE

2

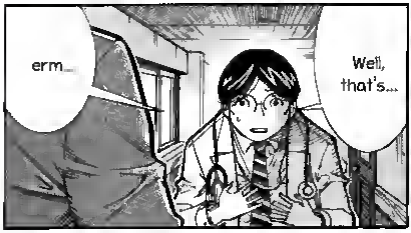
And you're asking me this right after I told you
that I would neither favor you nor give you any special treatment...
Yes...
I KNEW IT...
THAT WAS IMPUDENT OF ME...
...Erm,

I just wanted to, at least, learn something from you
while you're still here for the exchange of skills between Kitanihon and Meishin...
I'm very sorry...

Eh?



The one who taught you about using a vacuum cleaner to remove a piece of food from someone's throat
was actually he, correct?



Well, that's...
erm...

I think
it would be better for you to receive guidance from Asado-sensei than from me

You seem
to be mis-understanding something.

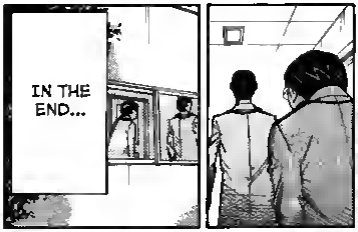
THIS IS TERRIBLE ...

I also heard it from him, but...
it was Kitou-sensei who first told me about it...

...AM I WRONG?
It seems to me that you have the impression
that I hate Asada.
The one I'm going up against in the professorial election
is not Asada, but Katou-sensei, isn't it?
The election rules provide that
the staff will be the ones to decide on the person most suitable for the position.
So if I actually try to put somebody down, it would surely be noticed by the electorate, which includes you.

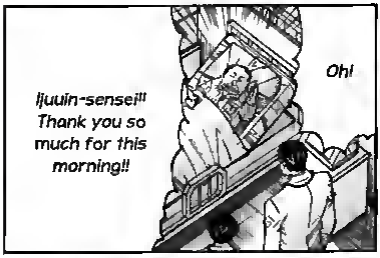
Ijuuin-kun.
There's no need to read a lot into my relations with others.

...Right.



IN THE END...

my way of being a doctor.
All I want is to show everyone



Oh!
Ijuuin-sensei!! Thank you so much for this morning!!

It was nothing.

...I COULDN'T BE HIS ASSISTANT.
702
Tadokoro Hiroyuki

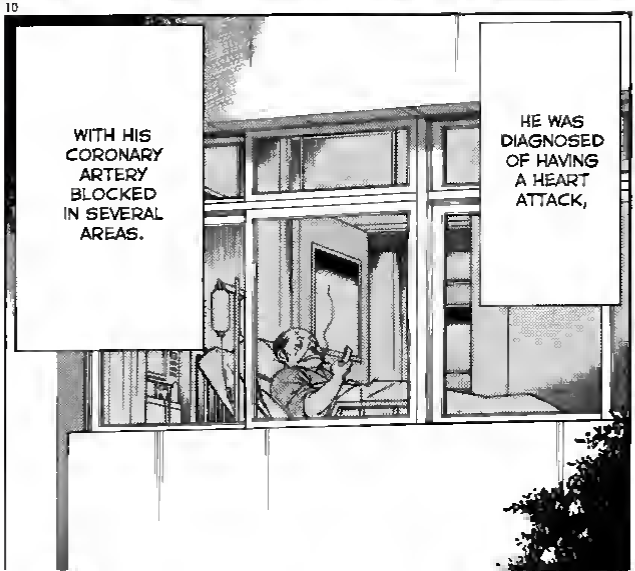
One of the nurses told me that you work under a very skilled doctor, and that you're a promising intern!!
I heard you're a member of some great group called the Batista Team!
Could that person next to you be that great doctor?
Ah, is that so?
Unfortunately,
I'm not that doctor you speak of.
My name is Kirishima Gunji
I'll be in charge of your surgery, Tahara-san

Kirishima-sensei is a great doctor! He's even a professorial condidate here in Meishin, so that's
Can't I request for that doctor with great skills?

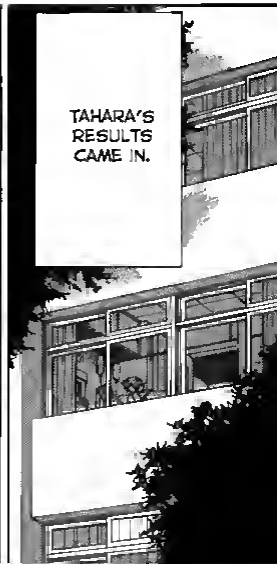
HUNTER SCANS

...It's Ijuuin-sensei.

THE NEXT DAY,
BOW



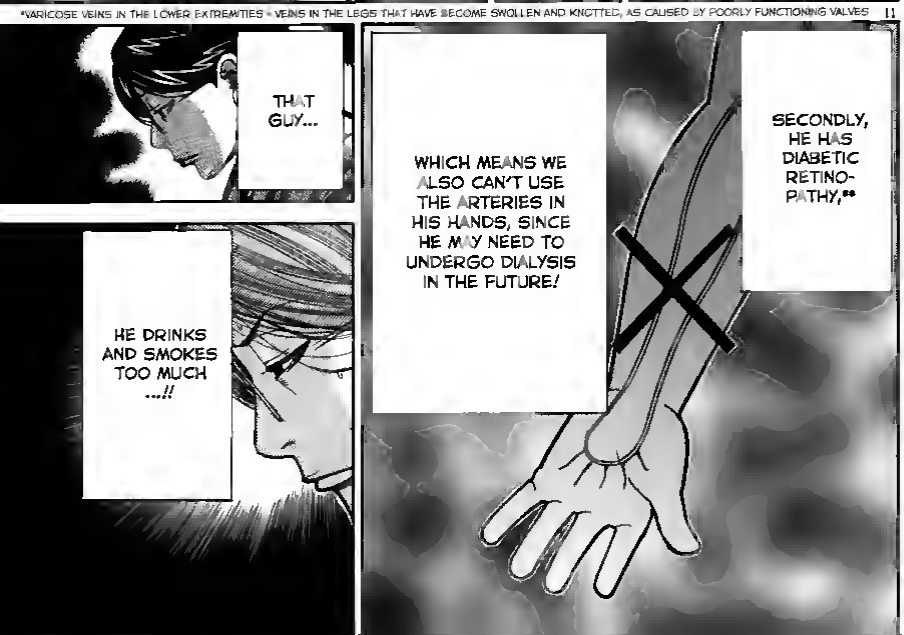
WITH HIS CORONARY ARTERY BLOCKED IN SEVERAL AREAS.
HE WAS DIAGNOSED OF HAVING A HEART ATTACK,



TAHARA'S RESULTS CAME IN.

HIS MEDICAL HISTORY SHOWS THAT HE HAD VARICOSE VEINS IN THE LOWER EXTREMITIES.*
FIRST OF ALL,
USUALLY, A BYPASS SURGERY IS PERFORMED IN SUCH CASES,
BUT IN HIS CASE, THERE ARE A LOT OF COMPLICATIONS THAT NEED TO BE DEALT WITH.
THAT HAD BEEN TAKEN CARE OF,
HOWEVER, WE STILL CAN'T USE THE VEINS IN HIS LEGS AS GRAFTS.

*VARICOSE VEINS IN THE LOWER EXTREMITIES = VEINS IN THE LEGS THAT HAVE BECOME SWOLLEN AND KNOTTED, AS CAUSED BY POORLY FUNCTIONING VALVES



THAT GUY...
HE DRINKS AND SMOKES TOO MUCH ...!!
WHICH MEANS WE ALSO CAN'T USE THE ARTERIES IN HIS HANDS, SINCE HE MAY NEED TO UNDERGO DIALYSIS IN THE FUTURE!
SECONDLY, HE HAS DIABETIC RETINOPATHY,**

**DIABETIC RETINOPATHY = A COMPLICATION OF DIABETES CAUSED BY DAMAGE TO THE RETINA, WHICH CAN RESULT IN BLINDNESS.

Tahara-san,
that's enough.
When did you manage to sneak those in?
Smoking on hospital premises is not allowed.
...WHICH ADDS UP TO ONLY THREE USABLE ARTERIES.
THE ONLY ARTERIES WE CAN USE AS GRAFTS ARE THE INTERNAL THORACIC ARTERIES AND THE RIGHT GASTRO-EPIPLOIC ARTERY...
RIGHT GASTROEPIPLOIC ARTERY
INTERNAL THORACIC ARTERIES

You'll be going through a surgery, so you need to take better care of your body...!!
But I just can't get rid of this habit!
I made you witness something bad~
you should follow the rules
Tahara-san,

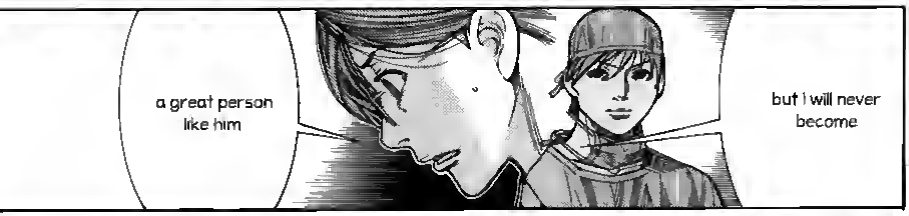
SO ANNOYING...
HE'LL NEVER LEARN ...
HE'S ALL TALK...
I'm really sorry.
I'll try to be more discreet next time.
SLAP!
Ah
All right.
Katou-sensei is calling for you
Iiuuin!
SO IT HAS COME TO THIS ...!!
SHE HAS CALLED FOR ME...
Vice Professor's Office

LUCKY SCANS

AS EXPECTED, IT'S ABOUT THAT...
Yes...
you'll be Kirishima-sensei's assistant.
It seems that

I NEED TO THINK
OF AN EXCUSE ...
SOME KIND OF EXCUSE ...
Well...
Erm...
I'm not... trying to betray you or anything...
.....
THAT'S RIGHT.
IT'S NOT LIKE I BETRAYED HER...
What's wrong...?

RATHER THAN SPOUTING AN EXCUSE,
WOULDN'T IT BE BETTER
TO JUST HONESTLY TELL HER WHAT I FEEL...?
I would like
to find my own path



And I can't fight the system like you do,
I also can't become a first-class specialist like Miki-san and Arase-sensei.
neither can I be like Fujiyoshi-sensei, whom the patients can lean onto.
That's just how things are.
However,
there's one thing I'm sure of...

LIVELY SCANS

There exists a path
that will lead me, Ijuuin Noboru, to being a great doctor.

I had decided to leave
even if it's frightening,
That's why,
From now on, I would like to think for myself.

I...
...didn't call you here to scold you
I got a gift from a clothes designer. My name is Akira, you see,
so I got mistaken for a guy
I thought I'd give it to you
instead of throwing it away.

walk around like that anymore.
It would be better to not
If you're going to work under Kirishima-sensei,
-It suits you.

Do your best
on the surgery.

I will!

2-LIFE

He grew up...

...a mother who can't part with her child...
I feel like...
...much faster than I had expected...
Take care
I'll be going now
that people like him...
It could be...
CLOSE

change the medical office...
will one day

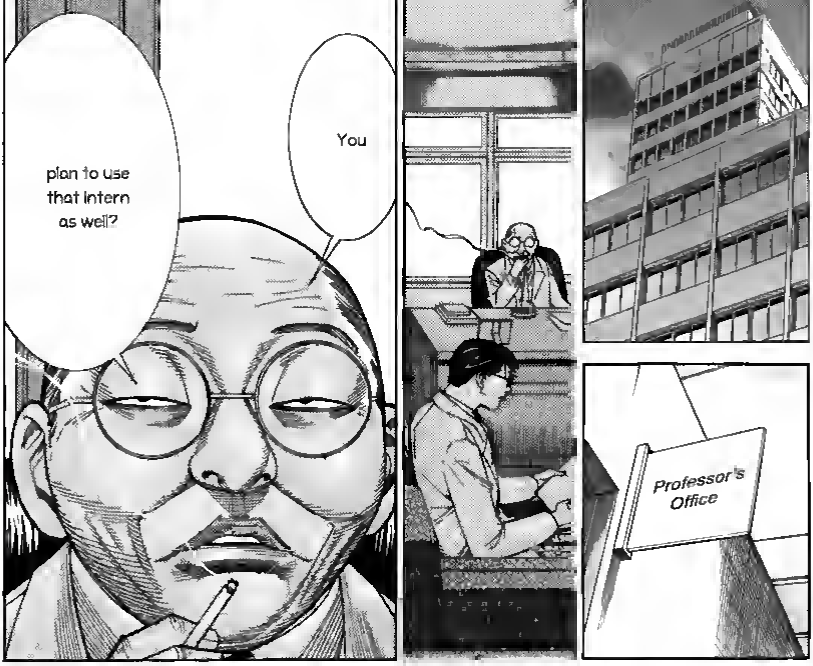
CHAPTER 106
THE ARENA



You
plan to use that intern as well?
Professor's Office

So you've already heard about it.
.....

2

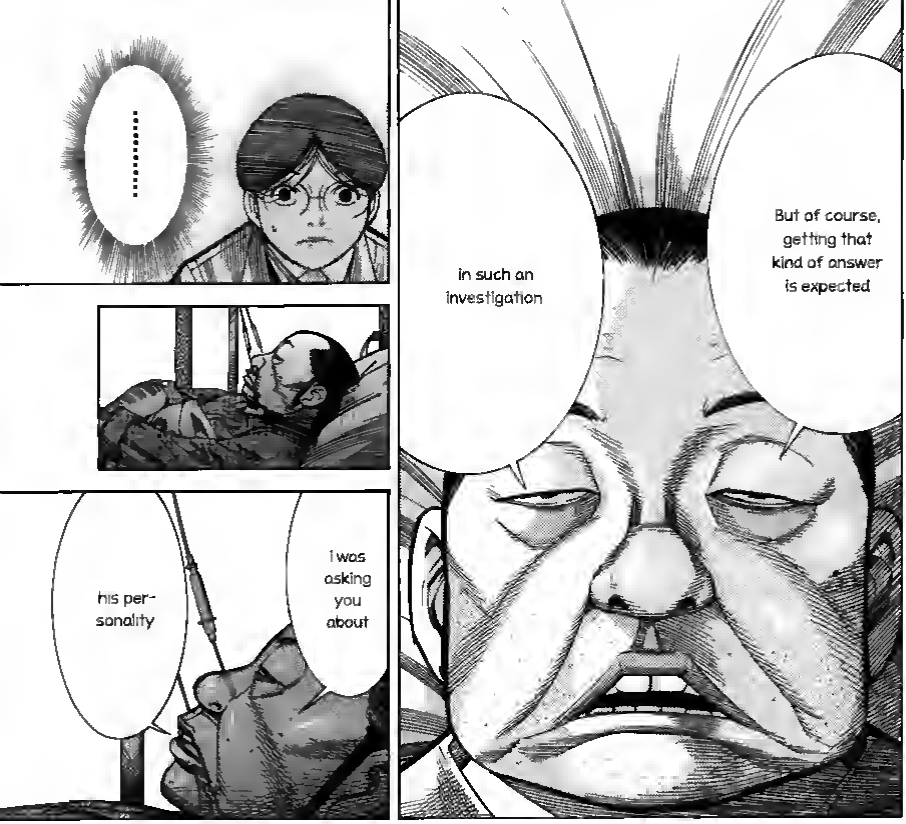
Of the Batista Team, I mean
Aren't you being too conscious?

I never thought you'd do
something that Asada had done...
Because it doesn't suit me?
The patient felt uneasy about the change of surgeons.
that was why I decided to include Juuin-kun, someone who had already gained his trust, in the team
Do you have a problem with that?

If that's how it is,
then it's fine.
Ah!
702
Tadokoro Hiroyuki
RATTLE
RATTLE

Please behave! I'm begging you!
Your surgery's tomorrow!!
So you found them!!
Ahaha haha!
FAT
Even behind the TV...!!
Three boxes!
I'm not...
You're probably hiding more, aren't you?
I wonder what kind of person he is,
that Kirishima-sensei

He probably came to Meishin to have an exchange of skills between the two hospitals
Like he said yesterday, he has successfully performed batista operations
He's a doctor from Kitanihon.
He's a great doctor
What kind..?
and he's a favorite for the professorial election in Meishin.
He seems to have published a great number of articles
He seems to be a very good doctor, according to patients in Kitanihon.
Yeah...



.....
But of course, getting that kind of answer is expected
in such an investigation
I was asking you about
his personality

.....
When I met him yesterday,
I got the feeling that he has a short temper.
What do you think?

he looked dangerous...
Somehow
When I compared him to a very skilled doctor,
the color of his face changed.
I don't
particularly want you to say bad things about him, okay?
You can praise him if you want.
How-ever,

.....
I want you to look me in the eye,
when you do,
because it looks like you're going to lie.
ALTHOUGH HE HAS ALREADY RETIRED ...
HE'S STILL A FORMER POLITICIAN...
HE SURE IS SCARY ...
Ijuuin-sensei,
I think you're a straightforward, honest young man.

Is like an ambitious politician
on the other hand,
Kirishima-sensei,
They're the type.
I have seen many people like him.

Ijuuin-sensei,
what do you think of Kirishima-sensei?
I see
who will eventually snap
and end up making a big mistake
I think... he's a great doctor...

for asking such a weird question
I'm sorry
...I WONDER WHAT HE MADE OF THAT...
since your surgery is tomorrow
That's completely normal
It seems like I lost my nerve a bit...
DEPENDS ON IT...
...AND YOUR LIFE

So you found it!
There's another box in the trash can!!
Ah!
IT WAS IN MY BLIND SPOT ...
squeeze
A BUSINESS CARD.

That's what happens to a politician
as soon as his body breaks down a bit

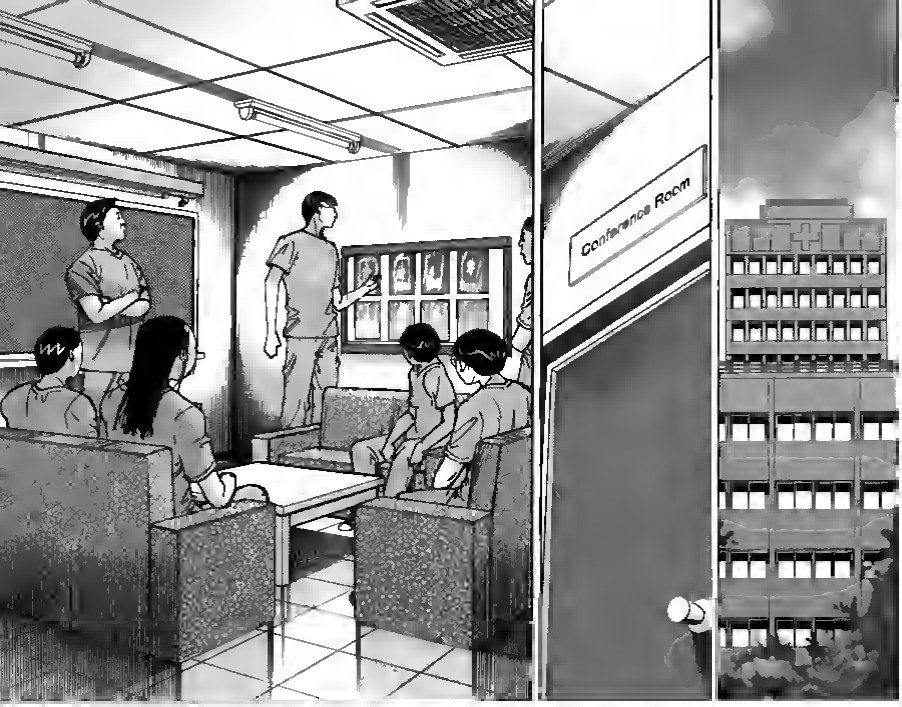
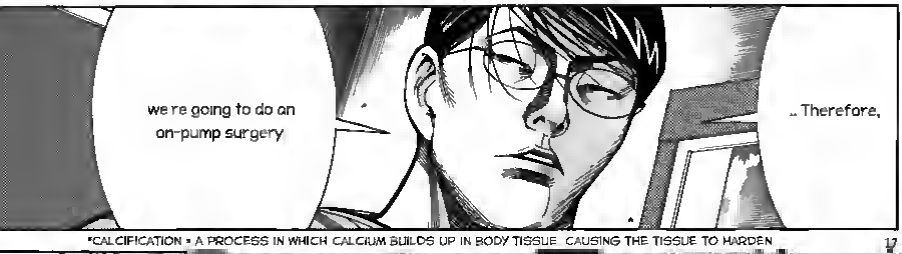
come from everywhere

I wonder...
If tomorrow's surgery will go well...

So don't worry.
I will do my best.

Would it be bad
If I had just one smoke
Yes





*CALCIFICATION = A PROCESS IN WHICH CALCIUM BUILDS UP IN BODY TISSUE, CAUSING THE TISSUE TO HARDEN

LIVELY SCANS

Everyone gets this calcified through the years. Right, Ijuuin?
With this degree of calcification,
I think the surgery can still be done on-pump
And there's also diabetes!!
Yeah.
Kihara-sensei, you'll be the first assistant once again.

I will do my best for Kirishima-sensei!
it's only natural for me, his mentor, to take that place.
Since it's Okajima who was originally in charge of that patient,

You seem quite enthusiastic

Haha.
If you put too much pressure on yourself, you'll end up making a mistake instead
You don't need to be that worried for that old geezer!!
Ah, yes
I just don't want anything overlooked...

...All right
The second assistant doesn't have a lot of work to do,
so you should relax and take it easier.
THAT'S RIGHT.
I DON'T INTEND TO LET YOU DO ANY-THING.

IJUUIN-KUN,
YOU PROBA-BLY WANT TO COMPARE
HOW I'LL USE YOU WITH HOW ASADA HANDLED YOU.

NOR LET YOU LIVE.
I WILL NEITHER KILL YOU
HOWEVER, I HAVE NO INTENTION OF WINNING IN THAT ARENA.
It's about time we go...
I'LL HAVE YOU BURIED LIKE ALL OTHER NORMAL DOCTORS.
I'LL TREAT YOU LIKE A NORMAL INTERN AND WON'T LET YOU DO ANYTHING.
IJUUIN-KUN.
I'M ALSO DOING THIS FOR YOUR GOOD,

HE'D ONLY GET DISAPPOINTED IN THE END.
...BECAUSE NO MATTER HOW MUCH A NORMAL PERSON PUSHES HIMSELF TO THE LIMIT,

...I haven't seen Asada today. Where is he?
He's probably in the ER...
It seems that a family of five was brought in,
so he ran there at once
I see

I DON'T BELIEVE IT...
IT CAN'T BE...
BECAUSE ASADA IS NOT HERE ...?
